Mandrake

Is recognised in the United States as the great vegetable substitute for mercury (see American Dispensatory, page 720.
The first to utilize Mandrake (Podophyllin) and present it to the public in a convenient form, was the well-known Dr Schenck of Philadelphia, whose famous MANDRAKE PILLS, are replacing all other purgative medicines throughout the U. States. They act speedily and efficiently without producing sickness at the stomach, nausea, or griping; arousing the liver to the due performance of its functions and may thus be termed a specific for the many ailments engendered by a torpid or diseased state of this organ, from which so many are suffering in the River Plate.

Phosphatine

It is well-known that no substances act so powerfully as a restoative on the brain and entire system as Phosphates, but the great objection to their use heretofore has been the nausea, heaviness and at times excitability produced by their use.

Professor G L Austin, M.D, Boston, is the first and only one who discovered and formulated Phosphatine, a preparation that produces perfect digestion and tones the entire system, nerve, bone, muscle and tissue—which a diseased body requires.

It may be termed the great 'Brain Strengthener' and no safer, purer, more palatable or more effective preparation has ever been offered to sufferers from mental or physical debility.

HAVAS' AGENCY

London, 14th

At a political banquet given last night, the Marquis of Salisbury, chief of the oposition, pronounced a violent speech criticising strongly the politic of the Gladstone Cabinet with respect to Ireland.

The noble Lord advices the Irish agriculturists to continue in their actitud of protesting, and holding numerous meetings until they have attained the recognition of their rights.

The orator concludes his speech by saying that their victory cannot be doubted.

THE NEW CAPITAL

Christopher Columbus had less difficulty in discovering America than our legislators in finding a capital. Since October 1880 all our public provincial men have taxed their reason, judgment and even imagination to solve the difficulty. Governor Rocha sent a Message to the Chambers on the subject, so long that not a newspaper in town could publish it, and when laid before the Legislature in pamphlet form, all the members voted it as read, to rescue the House and the secretaries from such a task. The public has, therefore, been deprived of this Message, and some few private individuals who began it last month have not yet finished its perusal. Project upon project then followed (with such rapid succession that it was impossible to keep up with the teeming fecundity of the administrative mind) to fix, buy and build up the new capital. Happily we are now approaching the finale. The projected law is the drop scene on the capital melodrama. Ensenada is to be the capital and La Plata its name.

What's in a name?

We for our part accept the new title as euphonious and alluring. In Europe they would have probably added Greek to the name, to increase its importance. Thus PLATOPOLIS would possibly be the European style, but to our mind the simplest is the best, and Plata means our new Capital, our new money, and our splendid river. Lucky it is, that in baptizing the green hills of Ensenada, we have escaped hero-worship. It is all very well to call streets and railway stations after popular contemporaries or departed public men, but a city or a capital is in a very different category, and although we have a leaning for Guarani names, we are not sure, but that La Plata is preferable. Good taste, of which we have such a capital stock in our community, would doubtless be offended at any of the following titles—

ROCHANOPLE
DAMICOPOLIS
NUEVA URIBURU
LA ROCA
MITROPOLI
SARMIENTOPOLIS
WILDELPHIA
PLAZA GRANDE
ROMERIA
IRIGONIA
VICTORIFICUS.

Any Indian name would be preferable to the foregoing. We, if we had a voice, would vote for Lambaré, the sweetest and most euphonious name in our geography, or Guazu; but La Plata, like Lord Burleighs nod, means an immensity, and people when coming from Europe to La Plata cannot well miss their way and stumble by mistake on dear dirty old B. Ayres. With a sigh we leave this most fatuous subject. We want but the 'ignis' to make a will-o-the wisp down at Ensenada to shine across the whole Plate and the whole ocean. Why not, with such antecedents, dub our new capital MELODRAMBOURNE; the name would be as long as Constantinople, and possibly the best name of all. On the 7 green hills of Ensenada we are now about to build our Capital; let us dream that the day will come when the old European will sit in its public square gazing in mute astonishment on its domes and minarets, fit monuments of the phosphorescent genius that first called it into existence.

The following are the laws:—

B. Ayres 13

To the Senate

Your Special Committee have given the project of a new Capital for the Province the closest attention under all its aspects, and, consulting the best interests of the province and its industry and progress now and in the future, we recommend its adoption.

God preserve the Senate,
B Hueyo; Jose Hernandez; A Vidal; N Acharal; M Cardoso.

PROJECT OF LAW.

The Senate and Chamber, &c.,

Art 1—The town of Ensenada is hereby declared the capital of the Province.

Art 2—The Executive shall found there a city to be called La Plata, on the high grounds facing the port of Ensenada.

Art 3—The 'egido' of the new city shall be six square leagues, which shall be divided into building, villa and farm lots, all duly marked with posts.

Art 4—It is hereby declared of public utility to expropriate the land necessary for carrying out Articles 2 and 3, to the extent of six square leagues, the North Western boundary of which shall be Mr George Bell's estate and the South Eastern Mr Felix Osornio's, with the depth required to make up the area mentioned.

Art 5—The formation of the capital shall be the work of the province itself direct.

Art 6—It is hereby declared indispensable to acquire the lands mentioned whereon to build the capital of the province.

Art 7—The cost of expropriation shall be covered under Law of July 6th, 1881.

Art 8—The Government shall expropriate from the present owners the lands already referred to, under the Expropriation Law.

Art 9—When the buildings erected under special laws shall have been completed, the Government must report to the Legislature, that it may pass a Law under which the authorities shall move to the new capital.

Art 10—The Government is authorised to make the outlay required by Art 3 and the expropriation, under Law of 6th July, 1881.

Art 11—Let this be communicated, &c.

PROJECT OF LAW FOR A PORT.

TRIP TO UPPER URUGUAY.

LETTER III.

The finest scenery on the Uruguay is from Paysandu to Salto, but owing to the continued rain we were deprived of much of its beauty and obliged to keep below. The river is so low at present, that even the little Iris had to go in some parts half speed, and when night came on we anchored, our Captain being afraid to proceed. A little above Paysandu, we passed the old saladero of Mr Williams now in ruin; here they first tried, in 1866, the Morgan system for preserving meat, since exploded, but adjoining this old tumble down concern is now one of the finest saladeros in the Banda Oriental, belonging to Mr Santa Maria, in former years Mr Haycroft's partner; on the opposite shore, and a little higher up, is the saladero Colon, Mr O'Connor's. We had a Spaniard on board, a receiver of jerked beef, who told us much about this model establishment, the finest and best managed in all Entre Rios; we scanned the place from the quarter deck. It has a snug tidy appearance; everything appeared to be in the best order, even the piles of bones near the mole, nothing slovenly or neglected, and our Reconocedor friend assured us that the Colon saladero is not only a credit to Entre Rios but to old Ireland; we had the great pleasure a few days after to meet Mr O'Connor, the proprietor, in the train going to Monte Caseros, and he impressed us with the idea of being one of the most thoroughly active business men in the whole Uruguay.

Farther up, on the Oriental bank of the river, is the renowned Guaibiyu saladero belonging to Sr. Pineyrua of Montevideo; this place ranks next to the Liebig Fray Bentos factory in point of size and importance, and with the estancia lands belonging to it, represents a value of 900,000 patacons. To be independent of troperos &c., these great saladeristas are now becoming estancieros on a large scale; they fatten their own cattle on their own lands, and we hear that Mr Pineyrua keeps a stock of 40,000 head on these immense lands, which have a frontage of 18 leagues on the Uruguay. The Hervidero is now the property of Sr. Pineyrua, he bought it at the rate of 9,000 pats per square league, it runs up to the Dayman. Years and years ago Mr Lafone had a saladero on it, now in ruins, and over 100,000 cows and sheep. There is an Island also in the river that still belongs to the Lafone family, and is offered for sale.

It was night when we passed the Mesa de Artigas, where according to tradition, General Artigas, in the War of Independence, encamped his army and threw his Spanish prisoners, sewed up in hides, down into the river. Don J A Fernandez and Alfred Bean stopped up on deck till a very late hour, to see this celebrated Tarpeian rock, but they had to wait for the return trip, and both

seemed much surprised that it was not twice as high, they having heard so much about it. It was raining hard as we passed the Delicias, Mr W Wilson's splendid estancia, also Mr Campbell's fine estancia, and we passed the night close to an Archipelago of rocks called the Corralito, with the hull and wheels of another sunken steamer high out of the river, to remind us of the falte that awaited the Iris if she missed the pass.

We passed several foreign barques at anchor in various parts of the river, waiting for wind and tide to get up. One Spanish barque was pointed out to us, just back from Cuba. Her captain, who is principal owner, has cleared in the last year 30,000 patacons in beef cargoes he took on his own account to Cuba. It was very early morning when we came in front of Concordia, and at seven o'clock we were ashore at Salto. The first man who boarded the Iris was our old friend, Mr. Hardy, whose splendid shipyard has turned out such fine steamers as the Jupiter and Iris. Hardy was delighted to see us, and invited us all up to see his establishment.

The appearance of Salto from the river is very pretty. The town has a thoroughly busy aspect. The situation could not be more charming. The white azotea houses, in the neat, clean but hilly streets, and the lovely Uruguay, fringed with brushwood, bathing the thickly-studded perpendicular banks, saladeros, graserias, 'curtiembres,' shipyards, chacras, estancias and neat country houses, all strike the eye of the visitor and form a picture of rural wealth, happiness and prosperity which make one's impressions of Salto the most favorable. We all followed Mr. Penard, who led the way, and at 8 a.m. found ourselves in the Hotel Concordia, one of the best and most comfortable hotels to be found in the River Plate. We strolled through the town with Mr. Alfred Bean before breakfast, and had remarkable good fortune to meet our old friend and quondam sub, Mr. J. Kemsley, who took us to the Club, Post-office, and to a German agate shop, where our young secretary had ample opportunity to practise his German. We breakfasted at 11 a.m., and by great good luck found Mr. and Mrs. Bouwer, Mrs. Treacher and Mr. Wilkinson, C.E., at the table before us. As in Glasgow, people at once took me for a capitalist, but instead of offering me shooting lodges in the Highlands, estancias were proposed. We ordered a coach and drove out with Messrs. Fernandez, Bean and Kemsley to see the Corralita Estancia, which is a fine property, 3½ square leagues, almost surrounded by two rivers, and for sale. We had heard so much about this place that we were quite prepared to find it another San Blas or Lambaré on the Rio Negro, but the land is high and stony near the town, and although most valuable from its locality, we preferred not even to ask its price. Mr. Bean found some beautiful and remarkable stones on one of the hills. The old estancia house was blown down in the terrible storm last January, and also a fine galpon. It was 4 p.m. when we got back to Salto, and then we started for Hardy's shipyard.

We must say that one of the finest sights to be seen in Salto is the Mensagerias Fluviales' extensive workshop, under the able management of Mr. H. Hardy, one of the partners. We inspected a large tripod crane made in the works and mounted on the end of a very large flat or 'chata,' also made in the establishment, and which is capable of lifting 30 tons a height of 40 feet and lowering 80 feet. We also saw a very large 'chata' in course of construction for facilitating the quick discharge of steamers. The well-known Silex was hauled up and under repair; when finished, she will be if not the most beautiful at least one of the most comfortable steamers on the river. Mr. Hardy showed us through the wood-making department of this very extensive place, under the management of Mr. M'Murchie, where everything was going on like clock-work, and where we saw planeing machines and hand circular saws in full swing; also a large frame-saw, made on the premises, busy cutting a log of wood into 17 planks and doing its work beautifully, which much attracted the attention of Mr. Fernandez.

We then went to the port in Mr. Hardy's beautiful little steam-launch, built and engined by him the Ærollte, where we saw a model railway he is making, also for facilitating the prompt despatch of cargo when the river is low. We saw in the shipyard the stern half of the old Saturno and various portions of the old steamer Menay. Hardy's yard is so filled with relics of our steam navigation that one might write a book on that bric-a-brac yard. We missed the old man, the parent of the concern, who showed us around six years ago, when in company with President Avellaneda. Old Mr. Hardy is gathered to his fathers. He was one of the best Shakesperian scholars in those parts.

It was nightfall as we left for the hotel. The streets of Salto are, however, so splendidly paved, adoquined and laid out, that one can walk through the town in the dark. To our countryman, Mr. Wilkinson, the Saltenas are indebted for their beautiful streets. We only wish Lord Mayor Alvear would invite friend Wilkinson to Buenos Aires. M'Adam was nothing to Wilkinson in the way of street and road-making; but with all its fine streets and gay situation, Salto is fast going to the dogs. The population has fallen from 10,000 to 6,000. But more of this anon.

FETES AT THE EXHIBITION.

The section of the Exhibition Commission styled the "Comision de Fiestas" held its first session on Friday evening, and from the result of its labours there is every likelihood of the Exhibitio, being 'livened up' very considerably. Although there is much in the Exhibition proper to entertain, as well as to form a study for many days to come for those who are interested in the industry and future of the country, yet the Committee recognize the fact that the great bulk of the public, upon whose attendance they depend to make the affair a success, desire rather to be amused than instructed. They have therefore resolved to do everything in their power to make the entertainments as varied as possible. Unfortunately, there is rather a lack, it seems, of 'talent' in Buenos Aires outside the musical line. Musicians there are in plenty, so it has been resolved to give a concert every evening. But vocalists are scarce, which is probably on account of the apparent desire of our æsthetic public to have nothing but classical music. In this we think there is an error and that a little more of the 'canciones populares' of every nation would be relished. There is soon to be a chess tournament, and a great assault at arms in fencing and gymnastics all of which should be highly interesting.

The concerts of Mr Rajneri and his orchestra are to go on as usual but they are to be supplemented with vocalists of the highest class secured at considerable expense. On the interveuing evenings, 'prize concerts' will be given, when every person who enters the Exhibition will receive with his 'Entrada' a numbered ticket entitling him to a chance in a lottery to be held in the interval between the first and second part of the concert, on a grand tombola. The prizes are to be distributed by the prettiest young ladies.

National concerts are to be given when the national music of the country selected will be the theme of the evening. All the National Societies will be asked to assist at these 'fetes',

The following Societies have already agreed to give concerts:—

Deutsche Sing-Akademie
Enfants de Berenger
Stella d'Italia, &c.

The English Literary Society will be asked to give one of their entertainments in the Exhibition, which we hope they will do.

The concerts are to be varied by a series of grand balls which the Ladies' Committee are now organizing. Amongst these there will be a fancy dress ball for children. If a 'prestidigitateur' can be found o any other suitable entertainment be offered, these diversions may be added to the programme.

The grand organ of Signor Poggi is now ready and Organ recitals will soon be given.

Preparations are being made to raffle many of the objects now on exhibition.

During the next few weeks all the school children of the city are to be invited to visit the Exhibition free at the rate of three schools a week, and they will probably sing the National Hymn in the theatre before leaving.

For day amusement it is proposed to fit up a Camera Obscura in one of the towers which will show the surrounding landscape. There is some thought also of making a diving bell to make regular descents during the day, which will be interesting.

The Committee invite persons of every nationality to give them their ideas as to how the Exhibition can be made more attractive.

In spite of all these additional attractions the price of admission will be the same, so that the Exhibition will remain as before, the cheapest show in town.

EDITOR'S TABLE.

The great topic yesterday was the new capital, or rather 'chief town' of the province (a country can only have one capital.) Old, swampy Ensenada is to be re-baptized and called La Plata. Well! its no business of our ours. Provincialism demands a seat of government, and will have it; but the end of every man woman and child who may be forced to live in the new city will be quite another 'ism'—and that's RHEUMATISM.

The Pedagogues had another noisy day on Friday. Dr. Leguizamon was in the Chair, and a thorny seat it was; nevertheless he steered the inexperienced assemblage with such admirable tact and good humour that nothing very 'outrè' occurred. One delegate, Mr. Massé, was so utterly disgusted at not being allowed to speak in defiance of all the rules of debate, that he bid the Conference a long farewell. Mr. Sastre, thinking, no doubt, that there was not enough work cut out for the learned assembly, moved to give it more cloth by admitting written addresses, but it was fortunately thrown out. Two or three lady teachers spoke, and Miss Manso relieving the tameness of the proceedings by tackling the Chairman on the subject of limiting the time to be allowed to each orator, a proposition on which she gave the meeting a brief but eloquent bit of her mind. Mrs. Carril, Directress of the Normal School in San Juan, also spoke, Mrs. Caprile, Directress of the Normal School in this city, was named on a Special Committee, with three gentlemen. In fact the ladies are fast coming to the front in the Conference

We are requested to state that to-day being the anniversary of the Sunday School connected with the American Church in Calle Corrientes, the service this morning will be for children.

On Monday Messr. Baltar and Quesada will sell the fine English thoroughbred sire Chivalrous by Adventurer out of Acquaintance by Irish Bird Catcher. Chivalrous has proved himself a fast horse as well as a stayer; he is half brother to Balgal. The horse will be sold at 3 o'clock, and is worth all the Sevres china in that depot. Chivalrous is one of the most fashionable bred horses ever brought to the country, and a member of High Life.

There was a bit of queer news from Montevideo yesterday. M Armio, a French military engineer, has come out to fortify Montevideo, having been specially engaged for the service by the Oriental Minister in Paris. What does this mean?

There was another Indian discovery yesterday in Calle Florida, and the archaeologists are all in a flutter. A workman pitched up something like a petrified turnip quite hollow. Nobody could make head or tail of it till one of our most distinguished antiquarians, who has everything Patagonian at his fingers' ends, and who was on the edge of the crowd, declared it to be the skull of an Araucanian Indian, and put it in his hat. The proprietor was probably some Chief who had come on a visit to his cousins' 'tolda' in Calle Florida and died here. This is a most extraordinary discovery. At Mercedes they have also made an astounding find—a colossal skeleton of some antediluvian Jumbo of such proportions that the owner of the bones when alive could have crushed the 'Zoo' favourite under one of his feet. It is rather remarkable how ovens, skulls, and skeletons buried for ages have come to crop up within the past week. The discovery of the ovens and the Indian's skull is the greatest stroke of *Standard* luck for our esteemed subscriber Mr Newland, the well-known dentist, whose rooms are in the 'altos', right opposite the spot where the valuable antiquities have turned up. Yesterday the crowd in the street was so tremendous and the excitement so great, that many of those who could not get a view in the street absolutely ascended to Mr Newland's saloons and had a tooth or two drawn, as an excuse to get a good look from his windows; he is doubling his fortune, thanks to the Arauco's skull. We're thinking of re-opening our Museum, on the strength of a petrified ostrich egg which we discovered last week at the falls of Salto.

There was a good 'mot' said in a fashionable cafe on Friday evening. A large party of landed proprietors sat dining at one table, in a sharp discussion as to the best mules and the way to breed them. Some tables from them sat two 'gommeux' of the purest water, one of whom, being slightly deaf, asked his friend what the landed gentry were discussing in such an excited manner. 'Asuntos de familia,' replied the other, finishing his champagne.

An extraordinary meeting of the Board of the Society for the Prevention of Cruelty to Animals is called for to-morrow evening, at 8 p.m., at the house of the President of the Society, 533 Cuyo.

The winter is approaching. There was frost on Friday night. It was most unpleasantly cool in the Exhibition, especially in the Fine Arts Gallery, where there was a Falkland Islands' gale whistling through the saloon. Doors should be put to it. We refer in our leading columns to the 'fiestas' in contemplation in the building. At present the only fun going on is the Pedagogues' Conference.

Paris and Rosario are cheek by jowl in our Supplement to-day.

We are glad to see that the Government cutter Bahia Blanca has been ordered to Chuput. This will just suit the colonists, and Mr Jones and Mr Rhys, the Welsh Commissioners, can come up in her to inspect the land on the Rio Negro on which it is proposed to found another Welsh colony.

We hear that whatever tramway company it is that carries the 'banda de musica' to the Exhibition charges for the service with the utmost religiosity. In the United States, or any other decent place, this would be called 'mean', in view of the fact that all the tram companies profit enormously by the Exhibition.

We have had an unusual number of railway accidents within the past few days. At the Boca a young girl was cut in two by a train, just as she alighted from a tram car, within a few yards of her home. Her young brothers were in the crowd that collected round her body, and the grief of the young fellows was truly heartrending when they recognised her.

We recommend a look at the beautiful prizes to be distributed to the pupils of Mr. Adolfo Negrotto's Seminario Ingles. They are on view at Burgos's shop in Calle Florida, and are indeed very handsome.

A decree abolishing quarantine is expected this morning. The past summer is the first since the yellow fever that has come and gone without even one 'caso sosp echoso' or alarm of any kind. People were so busy abusing the Exhibition and predicting that it would never come off, that they forgot to think about their precious health.

A High Life wedding that had been arranged between a distinguished foreigner and a Porteño lady has been broken off.

The latest news from the Chaco reports President Roca at Formosa, where he received a most enthusiastic reception, the whole population turning out in holiday attire to receive him.

The earthworks for the extension of the Southern Railway southward will be commenced next week.

There is talk of keeping the Continental Exhibition open till next Christmas Day. What about heating the building in the winter months?

There are telegrams from Chile saying that a decided effort to bring about a truce that will lead to a definite peace is being made by Mr Trescott, the United States Envoy, who is now discussing the matter with Vice-President Montero With that hot-headed patriot Pierola safely on his way to Europe, there is a chance of a favourable issue this time.

The provincial members of Congress are already arriving in town for the next session, the preparatory sitting of which will take place on 26th inst. The legislators had a very short time this year in the domestic Vale of Avoca.

Baltar and Quesada are clearing off their Parisian bric-a-brac very fast. Every night there is a crowd of the 'cream' in their mart. The prices paid are not extravagant, and some bargains have been secured.

Mrs. Lezica de Dorrego will leave for Europe with all her family on the 20th inst. We wish her a pleasant trip.

We are again requested to make public enquiry about Mr. Charles A. Hollander, born at Sedan, France, October 25th, 1847. Left New York for Brazil, May 22d, 1867, then employed by Messrs. H. E, Lane and Co., No. 15, Rue Direita, Rio de Janeiro. Last advices from him dated December 24th, 1868, from Buenos Aires. Any information will be thankfully received by his mother, Mrs. J. Hollander, P.O., box 1053, New York.

The Italian Geogrophical Society has named our distinguished friend Dr. Zeballos a corresponding member. It honours itself as well as the Doctor in so doing.

Mr. Massot's house at Moron was attacked on Thursday night by three bandits who fired through the window and wounded his butler: at sight of a Remington which Mr. M seized, the villains took to flight before he could let fly at them.

A mole is to be erected at Bahia Blanca. All very goood, but what ought to be done with that crabby place is to move it, lock, stock and barrel, to Monte Hermoso, where there is enough water for the Great Eastern to haul alongside the land like a ferry boat. Bahia Blanca will never be anything but a one-horse port, except at an expenditure that would "give pause" even to the British or French Exchequer.

ON 'CHANGE.

April 15th

Patacons	25.—
Cedulas A	101
Do E	86
National Bank Shares	114
Deuda Amortizable	21¼

There was nothing done on 'Change to-day in the way of stocks save in National Bank Shares and Amortizable; the latter appears to have been more dealt in to-day than since first introduced, but the ring is so occupied with Bank Shares that it cares nothing for any other stock at the moment. Several sales of Deuda were marked on the black board, amounting in all to 70,000; prices for the end of next month are marked at 21⅝, and one or two parties are trying to get up a speculation in that stock for that date, but so far it hangs fire; people in Montevideo believed that when the Deuda got a quotation here it would run to 30. They now see their mistake.

This was another battle day on 'Change in the Nat. Bank Share market; prices that yesterday were so firm and looking good for 120 to-day tumbled under the heavy pressure of sales for May. Every man, woman and child seems anxious to sell for end of May, doubtless they are all speculating on Congress and the new issue of shares, but this may be over speculated on, as is often the case in this market, and prices for May, perhaps, will rule higher than many of these wild speculators think. An artificial demand for the stock will assuredly be created by the market being oversold, and so much depends on influence and interest that possibly the whole scheme for increasing the capital will stand over for a year, and those who speculate on a new issue lose heavily.

Mr Peats has not left yet for Europe, but we regret to say for the last week has been ill and confined to bed; he will leave next month for Europe.

The sale of mares by Baltar & Quesada reported in our last was for 18,000 m/c and not 1,806 as incorrectly printed.

National Government land warrants are in demand and buyers offering on the Bolsa. We believe the price is from $25 to 30,000 m/c per league.

Gas Shares are very weak, and we heard of a small lot offered cash at $1,450 m/c; we believe not sold yet.

Mr Goodhall, of Bahia Blanca, was welcomed; he reports great activity down there and new settlers each day stocking the lands.

In Cedulas not a single sale in any series to-day, and as for gold they did not even talk of it.

The Bank measure to receive paper in payment for gold discounts was presented yesterday, referred to a special Committee, and will come up for discussion next week. The Bank discounted most freely yesterday and gave over 7 millions. All the banks are now discounting freely, and money rules easy in the market. Gold offered on Bank Shares at 11 o/o at a valuation of 90.

They say on 'Change that four of five holders of shares are liquidating and that from that circle 8,000 shares 'efectivos' will be delivered at the end of month; the broker of the Italian King sold very heavily, and if the Syndicate throws up, they will deliver 15,000 shares, but the question is, will they deliver the shares when they can make money by buying back.

Our old friend Captain McLean, of the Allan line, has left that service and is building a fine steamer for himself. We wish him the best success.

People talk on 'Change of making a Montevidean Steam Packet Co., capital £40,000 stg., and bringing out two splendid steamers for the service; the passenger traffic at present is simply magnificent.

The Argentine war steamer Constitucion is ordered to proceed direct to San Blas to buoy the channel; the great delay on the bar of the Villarino this trip has something to do with this; when the bay of San Blas is buoyed, a tram to Patagones will be the next move.

Argentine stocks in London have gone over par, and Hard Dollars 88⅛; see telegram.

La Plata—the new Capital, has fairly floored the Bolsa, all the brokers criticise the name of the new town, and many expected a far better name would be given; we refer to the matter in our leading column, a leading Provincial Broker says that 'Chirmoya' would be a far prettier name,

The wool market this morning is up all round and we hear of purchases by an English buraquero at 103; good wools are worth from 100 to 105; advices from Havre and Antwerp most favorable, the last of the clip will sell there at high rates, and the new season begin with high prices. In the continental manufacturing district, there is decided reaction and all hands very busy. 25,000 bales have been shipped direct from here to Germany, all our deposits are empty, everything that comes in sells right off, Sheepskins up and rising, French houses buying,

Exchange was done to-day at 49⅝ and we hear that more takers are offering, rate not so firm.

The present maize crop will lift the country up, it is so magnificent; never before have we had such a maize crop, large contracts are now being made for export, 49 m/c per fanega placed on the board. We hear that all our steamers during the winter will be insufficient to take the new maize crop, we, who have been a good deal up the country of late, can testify to what the maize brokers say, and the brokers will before the winter is over find that the maize will turn the exchange market.

Mr W Posse has been named President of the Water Board.

The National Government has just published a most important decree about the colonies; it will be published in our next.

The sales at the ring were as follows:—

The king came on 'Change at 4 o'clock and his courtier brokers enveloped him, he took exception to our statement of one party holding 6000 shares and liquidating and offered to pay 120 cash for 6000 shares to be delivered then and there, insisting that no such amount of ready shares could be had cash on the Bolsa. In the room there was intense excitement; the cheapest sale at afterhours was 200 at 113, when prices reacted, and then over 2000 shares bought and sold at from 113½ to 113¾. The feeling is, however, that bottom is not reached, and that next week we shall have a fresh departure downwards, to close the month with high rates.

Payments on Change were large, and all the tables were crowded, piles of checks and paper money, in fact, few of us who do not visit the plaza could believe there was so much done in the week.

4 cargoes of maize sold, 3 for Rouen and 1 for Cape of Good Hope; we hear of strong buyers of maize for distillers in Europe and hope yet to see a few cargoes sold for Dublin, where they have more money than whisky.

Several hide cargoes offering, but no ships to be had; freights rather firmer.

The saladero killing to date is as follows:—

Buenos Ayres	16[illegible],000
Rivers	426,400
Montevideo	142,000
Rivers	200,000
	988,400

500,000 of the new Nat. Bank notes for circulation in the Provinces have been delivered to the Bank, and another 500,000 on the way out.

Respecting the new issue of shares, it seems that before Congress can meddle in the matter the shareholders must meet according to the statutes and vote it. That's the rub.

Mr von Eiken leaves for Europe on Monday; we all wish him a pleasant trip and hope to see him soon back.

People should not throw away their money on stoves until they first see those at the Exhibition, the stove exhibits have surprized all who keep a cook.

Mr Rom leaves in the mail of 24th for London and takes many important affairs to negotiate, we wish him the best success, and if he form a San Blas Company, we shall probably meet him in Piccadilly or on the Pyramids; he holds an immense area of country about there for sale.

The French mail steamer Senegal in; mails to-morrow.

Mr Lahusen will also shortly sale for Europe; his furniture will be sold on 23rd. All who want a bargain should not miss the chance.

To-day the time for appealing against Contribucion Directa valuation expires. We think the Government ought to allow some more time.

Next week Don Carlos Casares is expected back in the Bank, quite recovered.

The sales at afterhours were—

Nothing done.

We extract the following from our correspondent in Rosario's letter, being more appropriate for this column and of much interest to merchants:—

"It is a generally admitted fact that the port of Rosario is the finest, most spacious, and most secure in the Republic. We are speaking of it as a sea-port, although its waters are fresh. It is almost completely surrounded by the main land and islands, and is about 3 miles long and a mile across, and the largest vessels can anchor in almost every part of it. With a proper system of wharves it would be one of the best ports in the world. Do you hear Mr Minister of the Interior? Has any one informed Your Exellency that three promising administrations have ended their term of office, and another equally promising is in power, and up to the present nothing, absolutely nothing, has been done of the works ordered by Congress fifteen years ago? And now let me tell Mr Irigoyen what I saw yesterday, and a pretty sight it was. The full-rigged ship County of Lancaster, of 1,046 tons register with 1,810 tons of cargo, entered the port under all her canvas, and anchored in front of the railway mole. It was a suggestive sight to witness a magestic ship of her size sailing into a port 350 miles away from salt water; and equally suggestive the fact that she comes laden with railway materials for the Northern and Southern extensions. And the difficulty experienced by this monster sailing vessel was at Martin Garcia. Only let that obstacle to Parana navigation be removed, and vessels of 3,000 tons can come up to Rosario."

The Sociedad Nacional del Pantelefono has issued a circular to its subscribers announcing the new addition of increased advantages to its present system. Judging from the following staff it would seem this company gives more employment than all the other companies together:—

Belgians	3
Paraguayans	2

Staff, 126, and 15 offices.

We take the following interesting figures from Mr H Altgelt's *Weekly Review of Agricultural Produce*—

"Arrivals of the week—

Wheat	908,694 kilos.
Flour	241,669
Maize	935,900
Flax	158,728
Hay	1,130 bales.

Besides there have arrived 2,784 bags of wheat, and 4,564 bags of maize, the weight of which has not yet been determined.

"Wheat—

"Arrivals during past week very limited. When about to close our review we heard of the arrival of a consignment from Rosario, but have not had time to ascertain the quantity. Very little business done and prices remain unchanged excepting for superior qualities, which are slightly firmer. Rosario $150-160; Salado $123-145; a lot from Azul sold in the South Market at $153, and a lot 'lavado' from same district fetched $115. From deposit a few lots realized at $146 150 per 9 ar. The market closes weak for inferior qualities and firm for good classes.

"Flour—

"Market quiet. Sales from Sta. Fe $24½ to 25 according to mark; city $26-27, superior $28. 1,000 bags sold for making biscuits $25.

"Maize—

"Few cargoes for Brazil at $52 f.o.b. Purchases made for export to Europe have caused this article to rise from $36 and 38 to 40.

"Linseed—

"Few good lots arrived, and little interest noted. Prices falling.

"Mr Altgelt has received a consignment of superior Russian flax seed, which he now has on sale. Linseed growers should not sow any other class than Russian, which is world renowned for its many excellent qualities."

PARIS LETTER.

(From our own Correspondent)

March 8th.

Strikes are becoming an institution in France, but their character has nothing alarming and will in due time right themselves, if third parties do not interfere, either in the form of deputies, as philanthropical busysbodies, or wind-bags that delude the workmen. Strikes are as peculiar to industrial life as measles and chin cough to childhood. They are not invariably bad, and the right to strike must be conceded, so long as order, property, and the freedom of others are not interfered with.

The mining districts of the south of France are at present troubled. Perhaps the differences would ere this have been arranged, had masters and men been left to themselves. Instead, some agitators arrived, and in the name of 'collectivism,' the extreme degree of socialism, urged, that the world would never be right till the employed occupied the shoes of the employer. To this absurdity was added the visit of a deputation of radical deputies, the Tooley-street tailors class. There was no reason why the representatives of Paris should arrogate to themselves the exclusive possession of a poor man's plaster; in any case, the miners declined to dance to their piping, and the masters wished them a frigid 'au revoir.' To preserve the mines from threatened destruction, the authorities despatched soldiers, for which act of prudence, the radicals of the Chamber accuse the Government of a contemplated massacre of the innocents. They prefer locking the door after the steed has bolted.

When miners demand shorter hours and double pay, their programme is impossible; when they request fortnightly instead of monthly payment of wages, to escape running into debt and being victimised by disguised Truck systems, their charter is practical. The colliers of southern are not so rich as their confreres in northern France. But they are a very peaceful, frugal, and laborious class. Strange as it may appear, they like their calling, and prefer it to factory work. They generally own a bit of land, and view its possession as a thing of beauty and a joy for ever. The recent discussion in the Senate, where rich manufacturers advocated twelve hours work for women, and girls between 15 and 18, is not a remarkable proof either of philanthropy or sagacity.

The complementary elections that have just taken place excited next to general indifference: the Republic scored the innings, as no one doubted. The battle against the Republic may be viewed as terminated, as there are no combatants.

Except by Protectionists, there is no interest displayed over commercial treaties. Extending to England the most favored nation clause, that is, placing her 'ex equo' with Belgium, means more of the rod than the sugar stick. Industrially, Belgium is not a microcosm of G. Britain. The protectionists have called all hands to the pumps, to increase the duties on Belgian cottons and woollens; they may likely succeed in their aims, and, bringing about a failure to execute the Belgian treaty, thus close the back door to John Bull's Manchester and Bradford interests. The wisest policy for England to adopt is, to seek fresh woods and pastures new; then in course of time, if France finds her export trade diminished by English commerce discovering head centres in Spain etc., she will return rapidly to her first love. If the contrary result, such of the protectionists as are not nihilists in religion, would be justified in commanding a Te Deum in Notre Dame, in honor of making France, great, glorious, and free, and may we be there to see.

The early English, once upon a time, won a Hallelujah victory. The French are now indulging in hosannas in consequence of the popular belief that, had Gambetta continued to rule the State, between Tunisian and Egyptian embroglios, the country would by this be in a general war. The idea of centuries ever again looking down from the Pyramids on 'braves', is not desired. People want to put money in their purse, and each man to live happy under his own vine or fig tree.

Next to dabbling in bubble shares, the best plan to become hastily rich is to knock a lonely and wealthy old lady on the head, and make a razzia on her money, scrip, and jewels. It is said that ten men are required to make a pin: now four are necessary to methodically execute such a murder: one keeps watch, a second is booted and spurred to decamp with the booty: a third rips open sofas, chairs, mattresses, old stockings, &c, while the fourth, places the victim beyond all surgery. This un-Descarterian method has been successfully carried out on a Mme. Galsterer, aged 76. Daylight is preferable for the work.

For a suicide in this cynical age to attract attention, it must be either marked by originality, or its perpetrator be well known. Poor Chabrillat belongs to the latter. He was a popular journalist; then became lessee of the Ambigu theatre, where he brought out some very successful plays, among others, Zola's 'Nana' and 'Assommoir'. He was considered rich, but he attempted to shoot himself yesterday to terminate pecuniary misery. From the time the ball entered above his heart, till it was extracted from his back, was not more than half an hour. His life is despaired of.

ROSARIO.

(From our own Correspondent.)

April 14th

The Corrientes revolutionary comedy, laughable as it is, gives rise to rather serious reflexions when we analyze the elements that produced it. It must be borne in mind that since the accession of the present President to supreme power, the party that elected him rules absolutely in all the provinces, to the complete exclusion of the members of the vanquished party. To such an extent is this the case, that in the two principal provinces of the Republic, Buenos Aires and Santa Fe, and in many of the others, the right of suffrage is denied them; that is to say, the members of the opposition party are in danger of personal violence should they dare to approach the polls. There is an almost total abstention of a large number of citizens, not only from any participation in the fruits and influence of administration, but they are actually ostracized. And amongst these victims of partizan passions, are very many of the country's best men. On the other hand it cannot be denied that the effervescence of the last presidential strife raised from the sediments of society a vast number of unworthy characters who will not willingly sink to their original obscurity. I have at times touched on this state of things, qualifying it as dangerous to the future peace of the country. The *Standard* has reiterated over and over again that revolutions in the Argentine Republic had disappeared for ever. In one sense you were justified in your favorable prognostications. Revolutions that endanger the peace of the country will probably not occur again, unless something very abnormal takes place. But revolutions of the Corrientes type will be continually occurring, not between parties, but between the members of the one party that now rules the country by right of a strong hand. In Santa Fe we shall have no revolutions of the Oroño and Iturraspe type; but I am very far from guaranteeing the province from rows such as Corrientes has been the scene of. Professing always the greatest respect for the National Government, the party in power must and will quarrel amongst themselves. This could never happen if a wholesome and free opposition were allowed full and ample rights as citizens.

I was rather tickled with your original idea of Congress federalizing any province in which a revolution occurred. 'Ojala!' as a Club Industrial liquor manufacturer exclaimed when he was told that Congress was about to put a two hundred per cent duty on French cognac. The result would not be unsatisfactory by any means. I sincerely believe that within twelve months there would be a revolution in every province of the Republic with the sole object of taking advantage of the law; and thus without any trouble or bloodshed we should be rid of the great curse of this country, independent provincial governments, and the nation would become one and undivisable, like our flourishing little neighbor, Chile, whose Government is a model it would be well for us to imitate, instead of lugging the name of the great Northern Republic into all our political combinations. If we could turn every Argentine into a D. Domingo Sarmiento, we might then with safety imitate the institutions of our N. American brethren.

It is something wonderful the development of wine production in this country. Ten years ago no one in Buenos Aires or Rosario ever thought of tasting native wine. Now it has become a common article of consumption. I, in company with a great number of others, use it in preference to the suspicions French claret, as a table wine. When the railways shall reach Mendoza, San Juan and Rioja the production will probably be sufficient to supply a demand which will have very materially increased by that time. We all know now that really excellent wines can be produced in any quantity in this country; and they will not need any protective duty to enable them to compete with all but the finer classes of foreign wines. The only thing necessary is cheap transportation. The freight of a cuartarola of wine from San Juan amounts to about double, or perhaps more, than that from Europe. When the railroads reach the wine regions let the Government reduce as much as possible the tariff for wines, as they have done for sugar. That is all the protection these grand products will require to enable them to compete successfully with the foreign article.

HOWARD'S CELEBRATED PLOUGHS

The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.
Dr. J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr. J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of Opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."
Extract from the General Board of Health, London, as to its efficacy in Cholera—"We strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."
CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Purchasers are cautioned to avoid counterfeits by observing that each article is labelled with the firm's Trade Mark, a "White Rose" on a "Golden Lyre."
ESTABLISHED 1799.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d,; boxes, 6d. and 1s. each. (a)
